RUIN OF SYRACUSE
CAUSED BY THE WAR

ONCE THIS WAS WORLD'S GREAT
EST PORT AND MOST
POPULOUS

(By Associated Press.)
SYRACUSE, Island of Sicily, Mar. 22. — The war, enriching so many shipowners and seaports of the Mediterranean, has all but completed the ruin of Syracuse, once the world's richest port and the center of commerce.

So hard has the war hit this port that it has become an important event recently when the six men of the crew of the little American schooner Albania got up her creaking anchor, broke out the stars and stripes, and sailed away homeward. With the departure of this ship seemed to fade the last hope of the 25,000 people who live here, a paltry handful left from the half million who once were proud to date their prosperity from 600 B. C.

While the war has brought activity to other ports of these seas, made Corfu, Brindisi, Taranto, Saloniki, the two Gallipolis, supply stations for colossal fleets of war vessels and their transports, brought them and their inhabitants wealth, filled their hotels to overflowing, made beds worth far more than during convention time in Chicago, wrought the prosperity of market gardeners and farmers, it has not only passed by Syracuse but has taken away what little business she had.

PLAN TO INCREASE
SUPPLY OF GOLD

(By Associated Press.)
VIENNA, Mar. 22.—With the idea of increasing the national supply of gold, Austrian savings banks are preparing to open special accounts with persons depositing gold ornaments and jewelry, on which the rate of interest will be one per cent higher than the ordinary rate. The bank will hand over the gold objects to a state appraiser, who will ascertain the quantity of gold contained and inform the bank of its value. The bank will then issue a book crediting the owner with the appraised amount.

RETALIATORY MEASURE

(By Associated Press.)
MADRID, Mar. 22.—Spanish fruit growers are urging the government to retaliate for the threatened English prohibition of Spanish fruits by imposing a heavy tax on ores and like material which England is obtaining from Spain. Part of the proceeds of the tax would be used to compensate the fruit trade for its loss.

VOTERS, ATTENTION!

The registration of voters for the school election to be held Saturday, April 1, 1916, will take place Wednesday, Thursday, Friday and Saturday of this week from 9 to 12 a. m. and from 1 to 5 and 7 to 8 p. m. Registration will take place in the office of the National Realty and Investment company.

OUTER MONGOLIA SENDS SPEC-
IAL ENVOY TO EMPEROR
YUAN SHI-KAI

(By Associated Press.)
PEKING, Mar. 22. — Prince Chien-han of outer Mongolia, special envoy and tribute bearer from the Kutuktu or living Buddha of Urga, was received in audience by Emperor Yuan Shi-kai today. The prince brought eleven white mules, some camels and other gifts to Yuan Shi-kai as a tribute. A large retinue, all in typical Mongolian costumes, accompanied the prince.

After the Mongolian dignitary had assured Yuan Shi-kai of the loyalty of the different banners in Mongolia, as well as of the living Buddha of Urga, Yuan Shi-kai conferred many jewels and other valuable gifts upon the prince, and gave him presents for the living Buddha. A second class Chia-ho decoration was also conferred upon the prince.

This visit is said to bring to a conclusion all differences which have existed between the Chinese government and the Kutuktu as to the terms upon which outer Mongolia accepts Chinese suzerainty.

WESTERN OIL MEETS NEEDS
OF HIGH SPEED MOTORS

"Developments in the modern automobile engine have resulted in a very high-speed motor," said G. M. Rose, local representative of the Standard Oil company, when asked to explain the attitude recently taken by motor experts in favor of western oil.

"Many of the most recent models operate at over 2,000 R. P. M.," said G. M. Rose. "What is needed now is an oil that will burn up completely without decomposing, and pass off on exhaust; thus leaving no carbon to interfere with the smooth operation of high-speed motors."

"This explains why gas-engine experts have recently begun to recommend motor oil made from asphalt-base crude. Asphalt-base crude belongs to the naphthene series of petroleum, which have the unique property of distilling without decomposition, and so leave behind no carbon deposit."

"It is interesting to see how this works out in practice. Take the Hudson. This car has a high-speed motor, over 3,000 R. P. M. All but three of the one hundred and sixty-seven owners in one of the larger coast cities are using oil made from asphalt-base crude and are getting better results than with any other oil. That is only one instance of conditions prevailing all over the coast."

DONNERWETTER! BEER
GOES UP TWO CENTS

(By Associated Press.)

BUDAPEST, Mar. 22.—The price of beer in Austria-Hungary has been raised for the third time since the war started, this time by \$1.50 per hectolitre (22 gallons) and two cents a glass. Before the war a glass of beer in a restaurant cost four cents; now it is ten cents. The breweries justify the increase by announcing that it is almost impossible for them to procure materials, especially barley.

MORE FACTORIES FOR JAPAN

(By Associated Press.)

LONDON, Mar. 22.—A Lancashire firm of textile machinery manufacturers has received orders from Japan for cotton-spinning machinery sufficient to equip five mills with a total of about 250,000 spindles.

In the past cotton mills in Japan have been worked night and day, but from the beginning of next July a new law will forbid further night work.
